## International Round Table on Rights and Distribution of Children's Books Canada - Italy – Slovakia – United Kingdom

### A Networking Event

The Bologna Children's Book Fair is the largest of its kind in the world and is a must for all international key players. How do Canadian, Italian, Slovakian, and UK publishers succeed in such a crowded international market? Are there opportunities for publishers to work more closely together? This round table will tackle these questions as well as highlight the similarities and differences between our publishing industries. The round table will focus on trends in key markets, rights, and distribution. The aim is to inform participants and create business contacts, which can be further solidified during the networking reception and Children's Book Fair.
